Tallantire Wind Farm

A meeting was held on 28th November. Legal Agreement has still not been received. Will need to be forwarded to CALC for their inspection.

Turbines to be delivered between 4th February - 25th March. A discussion took place regarding water courses as there has been flooding in Gilcrux from the field near the Windfarm. Rep will provide photos for next meeting. RES have also undertaken a survey on the roundabouts on the A595/A66 and A594/A595 as the turbines will be delivered along these roads. The transporters will need to go the 'wrong way round the roundabouts'. Work is expected to start in January, Road signs will also probably have to be taken down to get the turbines round.
